INFORMATION

WHAT IS THE POINT IN TIME (PIT) COUNT AND WHY IS IT IMPORTANT?

The Point-in Time (PIT) Count is a one-day, unduplicated count of sheltered and unsheltered homeless individuals and families.

Knowing the number and nature of people who are homeless helps identify the scope of the problem to better improve system efficiency, strategically target scarce resources, and promote effective interventions in our community.

VOLUNTEER/REGISTER

Volunteers are needed at multiple locations county-wide to conduct surveys and hand out comfort kits to our neighbors experiencing homelessness in the streets.
